Re: WTVA, Inc., Licensee of KTFL(TV),
Flagstaff, AZ
Request for Reduction of FY 2003 Regulatory Fees
Fee Control No. 0309098835424009

Dear Mr. Solomon:

This is in response to your request dated September 5, 2003, filed on behalf of WTVA, Inc., for reduction of the fiscal year (FY) 2003 regulatory fee for KTFL(TV). Our records reflect that the station paid a FY 2003 regulatory fee of \$4,450.00.

In your request, you assert that the regulatory fee for KTFL(TV), which is included in the Phoenix (Prescott), Arizona Designated Market Area (DMA) (the 16th largest DMA in the nation¹), should be reduced from \$43,225.00 to \$4,450.00, which is the regulatory fee for stations located in market numbers 101 and higher (i.e., "remaining market" stations), given the limited coverage of the station's signal. You state that KTFL(TV) is located in Flagstaff, Arizona, which "is approximately 130 miles from the Phoenix-Mesa Metro market and in an entirely different geographic area[.]" and that the station broadcasts from a site at Mormon Mountain, which is located in the Coconino National Forest. You state that the station's Grade B coverage contour does not include any portion of Phoenix, the principal city in the DMA. You state that although Prescott is within the station's predicted Grade B contour, "suitable off-the-air signal reception from KTFL is blocked by mountainous terrain[.]" You state that KTFL(TV) is not carried on a cable system or multi-channel video system within the DMA and that the signal is not rebroadcast by any TV translators. You state that 2003 "[c]ensus data confirm that KTFL's coverage contour population is 283,452, representing 103,450 TV Households or about 18.1 percent of the Phoenix DMA's 570,850 TV Households . . .[.] far below the total count for the market." In addition, you state that KTFL(TV) is not affiliated with a network.

¹ Stations in market number 16 cover 1,524,130 television households. *2003 Television and Cable Factbook* at C-40.

The Commission has set standards for determining whether the regulatory fees for a television station may be reduced below the fees assessed for stations in the relevant DMA. *Implementation of Section 9 of the Communications Act*, 10 FCC Rcd 12759, 12763 (1995). The Commission will reduce fees for television stations having certain characteristics. *Id.* Such a station must be located outside the metropolitan area of the principal city in the assigned DMA and may not provide a Grade B signal to a substantial portion of the assigned market's metropolitan areas. *Id.* Stations that meet these criteria and request fee reductions will be assessed regulatory fees based on the number of households they serve; stations that serve fewer television households than are in the top 100th market will be assessed the regulatory fee for remaining market stations. *Id.*

We find that because KTFL(TV) is located outside the metropolitan area of the principal city in its assigned DMA and does not provide a Grade B signal to a substantial portion of its market's metropolitan area, KTFL(TV) has met the Commission's standards, as set forth above, for reduction of the station's regulatory fee for FY 2003. In the absence of Nielsen data reflecting the number of television households covered by KTFL(TV),² our review of the record reflects that KTFL(TV)'s Grade B contour covers 103,450 television households and thus serves fewer households than a station in the top 100th market.³ We therefore find that it is appropriate that KTFL(TV) be treated as comparable to a VHF commercial station in the remaining markets and be subject to a \$4,450.00 regulatory fee for FY 2003.⁴

Accordingly, we grant your request to treat KTFL(TV) as comparable to a VHF commercial station in the remaining markets subject to a \$4,450.00 regulatory fee for FY 2003. For purposes of regulatory fee assessments in subsequent years, and absent significant changes in the factual situation, KTFL(TV) will not be treated as a station in the Phoenix (Prescott), Arizona DMA. KTFL(TV) will be required to submit the regulatory fee for VHF commercial stations in the remaining markets. You should note that KTFL(TV) is under a continuing obligation to report to the Commission any changes in its operations that could affect its qualification for a regulatory fee reduction. You should retain this letter and submit a copy of it with any future correspondence with the Commission concerning the regulatory fee for KTFL(TV).⁵

² Nielsen does not report data reflecting the number of households served by KTFL(TV). *See id.* at A-77.

³ Stations in market number 100 cover 277,760 television households. *Id.* at C-40.

⁴ *See* C.F.R. §1.1153.

⁵ In view of this holding, we need not reach your additional request that full payment be deferred because of financial hardship.

In summary, we grant your request to treat KTFL(TV) as comparable to a VHF commercial station in the remaining markets subject to a \$4,450.00 regulatory fee for FY 2003. If you have any questions concerning this matter, please contact the Revenue & Receivables Operations Group at (202) 418-1995.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark A. Reger", with a stylized flourish at the end.

Reference: *Petition for Reduction of Regulatory Fee and For Related Relief*

Ladies and Gentlemen:

Submitted herewith on behalf of WTVA, Inc., licensee of KTFL (TV), Flagstaff, Arizona, are the following:

1. FCC Form 159 and Regulatory Fee check for \$4,450.
2. Original and four (4) copies of a "Petition for Reduction of Regulatory Fee and For Related Relief."

The Petition contains a request for waiver and deferral of the requirement in 47 C.F.R. § 1.1166 (d) that the full Regulatory Fee be tendered by the regulatee requesting reduction thereof.

WTVA, Inc., seeks classification as a Remaining Market Station and is tendering the Regulatory Fee assessed against such licensees.

If there are any questions concerning this matter, please communicate with the undersigned.

Respectfully submitted,

WTVA, INC.

Request for Permanent Reduction)	
Of Regulatory Fee & Related Relief)	

To: Office of Managing Director

**PETITION FOR REDUCTION OF REGULATORY FEE AND FOR
RELATED RELIEF**

WTVA, Inc. ("WTVA"), by its attorneys, respectfully files this Petition for Reduction of Regulatory Fee and for Related Relief. In support hereof the following is shown:

I. BACKGROUND

WTVA is the licensee of KTFL (TV), Channel 4, Flagstaff, Arizona ("KTFL"). Flagstaff is located approximately 130 miles northwest of Phoenix and is within the newly-designated Phoenix (Prescott) DMA ranked 16th by Nielsen.¹ Television stations licensed to that DMA would ordinarily pay a FY 2003 Regulatory Fee of \$43,225. By contrast, a "Remaining Market" station's current Regulatory Fee is \$4,450. WTVA respectfully requests that it be classified as a remaining market station. WTVA will demonstrate herein that KTFL has all applicable characteristics of a remaining market outlet and should be so classified.

¹ See, however, 47 C.F.R. § 76.51, which designates the market as Phoenix-Mesa. Until recently, Nielsen identified the DMA as Phoenix. For purposes of this Petition Phoenix-Mesa will be considered as the DMA's principal metropolitan area.

II. KTFL SHOULD BE CLASSIFIED AS A REMAINING MARKET STATION

A. The Applicable Standards.

The Commission has set standards for determining whether the regulatory fees for a television station may be reduced below the fees assessed for stations in the relevant DMA. *Implementation of Section 9 of the Communications Act*, 10 FCC Rcd 12759, 12763 (1995).² If a station meets those standards and requests a fee reduction, the Commission will designate that station a remaining market station. The standards are as follows:

- ◆ The station is not affiliated with a major network.
- ◆ The station is located outside of the metropolitan area of the principal city in the assigned DMA.
- ◆ The station does not provide a Grade B signal to a substantial portion of the assigned market's metropolitan areas.
- ◆ The station serves fewer television households than are in the top 100 market.

B. KTFL Has Satisfied the FCC's Legal Standards for Relief.

(1) *No Affiliation.* KTFL is an independent station. It carries programming produced by The Family Channel and has no plans or prospects for an affiliation with a national network.

(2) *Station Location.* KTFL broadcasts from a site at Mormon Mountain, which is located in the Coconino National Forest, Flagstaff, which is the "Gateway" to the Grand Canyon, is approximately 130 miles from the Phoenix-Mesa Metro market and in an entirely different geographic area. For the Commission's ready reference Exhibit A hereto is an Arizona

² See also Dec. 17, 1999 letter from Office of Managing Director to Kenneth E. Satten, Esq., *In the Matter of Request for Waiver and Reduction of Regulatory Fee for KCSG (TV)* (Fee Control No. 980921883522001) (Waiver granted to station licensed to Cedar City, UT, located in 36th market, Salt Lake City, UT).

map segment from the 1998 *National Geographic Road Atlas*, depicting the relationship between Flagstaff and the Phoenix-Mesa area.

(3) *Grade B Coverage.* Exhibit B hereto is a copy of KTFL's coverage contour map from the 2003 edition of *TV Factbook*. When reviewed in conjunction with Exhibit A, it is readily seen that the station's Grade B coverage contour does not include any portion of Phoenix, the principal city in the assigned DMA. Prescott (pop. 38,938),³ the market's newly-designated secondary city, is hardly classifiable as a "metropolitan area" for purposes of this analysis. It is located approximately 100 miles NW of Phoenix. *See* Exh. A. Although it is within KTFL's predicted Grade B contour, suitable off-the-air signal reception from KTFL is blocked by mountainous terrain-- in particular, by the Munds Mountain Wilderness Area in which elevations range from 3,600 feet to 6,825 feet on Munds Mountain itself.⁴ Nor does KTFL enjoy carriage on Prescott's substantial cable system,⁵ or for that matter, *on any cable system or multichannel video system within the DMA.*⁶

(4) *TV Households.* According to the 2000 U.S. Census the average number of persons per household in Arizona is 2.74. Census data confirm that KTFL's coverage contour population is 283,452, representing 103,450 TV Households or about 18.1% of the Phoenix DMA's 570,850 TV Households.⁷ Thus KTFL's TV Household figure is far below the total count for the market.

³ Source: 2000 U.S. Census for City of Prescott.

⁴ *See* www.backpacker.com/places/0,62678,43100.html.

⁵ According to *Television and Cable Factbook* (p. D-71, 2003 ed.), the Prescott cable system serves 31,340 subscribers.

⁶ Nor is the signal rebroadcast by any TV translators. Although EchoStar and DIRECTV offer local-into-local service in the DMA, KTFL is not distributed by either carrier because it has not been able to deliver acceptable quality signals to their local receive facilities.

⁷ The 2003 *TV Factbook* specifies 1,564, 130 as the population of the Phoenix DMA. Comparable data are not given for the "Phoenix (Prescott)" DMA.

The foregoing facts confirm that WTVA has met, without exception, its burdens under the Commission's standards for remaining market eligibility for KTFL.

III. WAIVER AND DEFERRAL REQUEST

WTVA respectfully requests a waiver and deferral of the requirement in 47 C.F.R. § 1.1166 (d) that petitions for fee reduction must be accompanied by a "full fee payment and Form 159."

WTVA is tendering concurrently herewith (see Exhibit C) a Form 159 and a check for \$4,450, which is the current regulatory fee for remaining market stations. WTVA requests deferral of payment of the full fee of \$43,225, which would be due if the Commission declines to grant the instant Petition (but would be refunded upon affirmative action). To pay that substantial fee at this time would exacerbate the severe financial hardship that KTFL has been experiencing since it went on the air in early 2000.⁸

Exhibit D hereto contains supporting economic data, a *pro forma* Profit and Loss Statement for KTFL showing that the station was unprofitable during the period October 1, 2002 through the end of last month. It is to be noted that the Commission's records in connection with KTFL-DT's several extension applications fully document the fact that KTFL consistently sustained operating losses since it started broadcasting.

IV. CONCLUSION

KTFL has met the criteria for regulatory fee reduction and for treatment as a remaining market station. Accordingly, it respectfully requests the Commission to grant this Petition in its entirety.

⁸ Relying on financial hardship showings similar to the one tendered herewith, the Commission has approved several extensions of KTFL-DT's build-out deadlines. Construction of KTFL-DT, which must be completed by the end of this month, will require a capital investment of approximately \$ 800,000, to be funded by an intracorporate funds transfer.

Respectfully submitted,

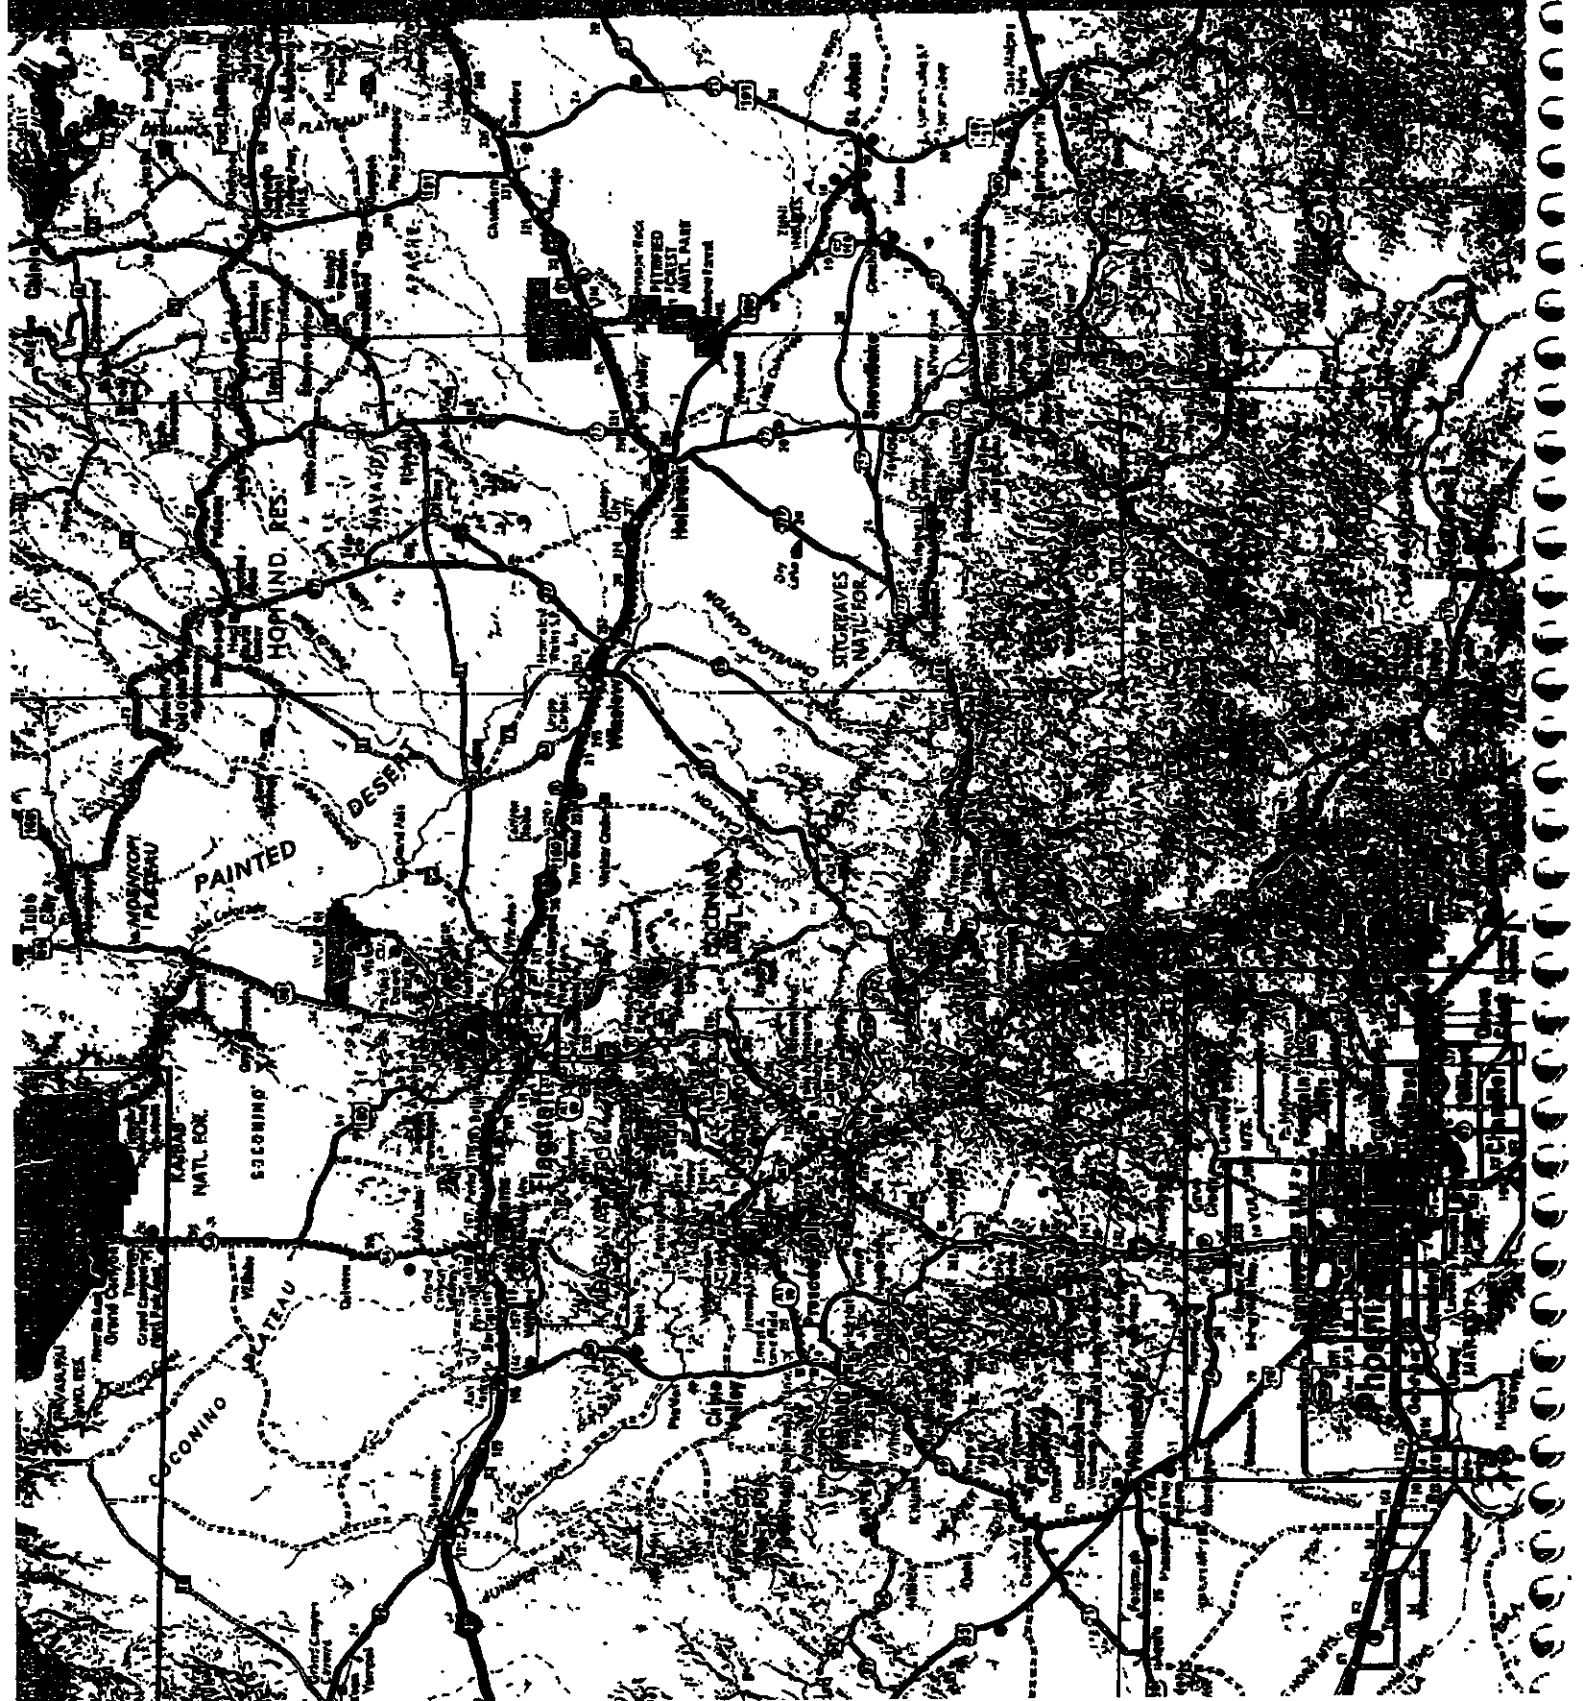

WTVA, INC. [KTFL (TV)]
